

FISHING TOURISM & POLIFEMO STEAMBOAT

The sight of land from the sea has always held its own particular fascination, even more so if the coastline is as varied, jagged and luxuriant as that on the **east coast of Sicily** in whose waters, **Etna** is reflected in all its majestic impressiveness.

We would like to suggest some 'Marine' Excursions that you can do when you stay at "**Case Perrotta**". You could admire the Riviera dei Ciclopi right up to Taormina and/or take part in a fishing-tourism trip.
